

SEWER JETTER

PORTABLE ELECTRIC & GASOLINE DRAIN CLEANERS

Handcrafted in South Dakota.
Hard at Work around the World.

Blasts through sludge, soap and grease blockages, power scrubs line as hose is pulled back.

WHY CHOOSE ALKOTA

There is no reason that machines need to be complicated

Our team of engineers and product developers have been designing, building and improving high pressure cleaning systems since 1964. At **Alkota** we don't believe that simplicity should mean low quality.

Our machines are built with high quality material the old-fashioned way, by hand. We design and assemble them right in the heart of the **USA**, so that you know you're getting an American - built machine.

210J Jetter

440J Jetter

840J Jetter

Easy to use! Thrust propels hose down the line and guide the hose into the drain.

210J JETTER FEATURES

- Powerful working pressure of 1500 psi at 2 GPM for fast, effective cleaning of lines.
- Pulse valve for pulses action to easily negotiate difficult bends and traps.
- Portable and compact unibody one-piece cart with dual lift handles for easy transportation.
- Industrial GP triplex pump with corrosion-resistant, forged brass head.
- Hand swivel hose reel for easy storage of sewer hose.

SPECIFICATIONS

- 2 GPM @ 1500 PSI portable electric jetter
- 115Volt, 20 amp single phase with 36ft GFI power cord
- 2.3 HP electric motor
- GP industrial pump for long life
- Pulse valve
- On/Off high pressure valve
- Glycerin filled pressure gauge
- Adjustable pressure unloader valve
- Thermal relief valve
- Compact design for easy roll
- Unibody one-piece coated frame (no bolts to come loose)
- Easy rewind hose reel with 1/4" ID x 100 ft length sewer jetter hose with sewer nozzle

440J JETTER FEATURES

- Powerful working pressure of 4,000 psi at 4 GPM for fast, effective cleaning of lines.
- Pulse valve for pulse action to easily negotiate difficult bends and traps.
- Portable and compact wheel cart with two pneumatic wheels.
- Industrial GP triplex pump with corrosion-resistant, forged brass head.
- Hand swivel hose reel for easy storage of sewer hose.

SPECIFICATIONS

- 4 GPM @ 4,000 PSI portable gasoline Honda GX390 engine
- Electric start with backup pull start
- GP industrial pump for long life
- Pulse valve
- On/Off high pressure valve
- Glycerin filled pressure gauge
- Adjustable pressure unloader valve
- Thermal relief valve
- Compact design for easy roll
- Easy rewind hose reel with 1/4" ID x 100 ft length sewer jetter hose with sewer nozzle

840J JETTER FEATURES

- Powerful working pressure of 4,000 psi at 8 GPM for fast, effective cleaning of lines.
- Pulse Valve for pulse action to easily negotiate difficult bends and traps.
- Portable and compact wheel cart with four pneumatic wheels.
- 16 gallon Suction Tank
- Industrial GP triplex pump with corrosion-resistant, forged brass head.
- Hand swivel hose reel for easy storage of sewer hose.

840J CONTROL PANEL

- Easy access regulator for adjusting pressure
- Pressure gauge 1/4 turn valve for pressure to reel
- Super swivel on reel for long life

SPECIFICATIONS

- 8 GPM @ 4,000 PSI portable gasoline Honda GX690 engine
- Electric start
- GP industrial pump with gearbox for long life
- Pulse valve
- On/Off high pressure valve
- Glycerin filled pressure gauge
- Adjustable pressure unloader valve
- Bypass back to suction tank
- Compact design for easy roll
- Easy rewind hose reel with 1/2" ID x 200 ft length sewer jetter hose with sewer nozzle
